EVERGREENS

This block of evergreens is growing at the Alabama Nursery Division, and must be cleaned up this spring, hence the very low prices. We use every precaution in handling evergreens to keep roots from exposure, but recommend digging them with a ball and burlapping. For price, handled in this manner, add 10 cents per plant to the grades 3 feet and up, 5 cents per plant to the grades under 3 feet. If you do not specify "balled and burlapped" we will puddle the roots in a stiff clay grout, for which no extra charge is made.

WATCH SPRING, FRENCH, 9 inch. Per pair postpaid, \$1.70; per dozen pairs, freight or express (weight per dozen pairs 11 lbs.) \$17.00.

Watch Spring, French
8 inch

THE WATCH SPRING FRENCH SHEARS stand at the head of the list for making cuttings of all kinds. For this work the 8 inch size is just right. For cutting back seedlings to the bud or any heavy work the 9 inch is recommended.

In making cuttings the shears used should make a quick, clean cut (which these shears do to perfection) and they should have a properly proportioned grip to enable the operator to do a full days work without cramp. We have used this make for years and find that it fills the bill better than any other we have tried. Once in a while a spring will break. We now import extra springs and can supply either size at all times.

GREAT GRIP NUT SHELLER

A Real Nut Cracker at Last

Not strictly speaking a Nursery tool, but all nurserymen like nuts, and you have like ourselves used the old style nut crackers, pinched your fingers, smashed the meat of the nut all to pieces, lost your temper and damaged your religion. In offering this little implement we are really doing missionary work. It is a dandy. Beautifully made, will last a life-time; constructed on new and scientific lines. So arranged that the jaws with their great grip, never close fully; will receive a table nut of any size and variety, and crack the shell only, bringing out the meat whole. Will handle castana ("nigger toes") with the same ease that it shells a pecan. Heavily nickeled, an ornament to any table. Price each, postpaid, \$1.60; by freight or express with other goods, 1.50. Money back without a word to any dissatisfied user.
